

WorkWise, Inc. Announces New ATLAS Program - Affordable ERP Offering - Complete System with 0 Percent Financing

WorkWise, Inc. has been providing manufacturers with world-class ERP solutions and implementations for nearly 30 years. The ATLAS program is a comprehensive, ERP offering that provides businesses with solutions for information management and pro-active decision making. ATLAS includes a complete ERP solution including CRM, Business Intelligence and more, for just a fraction of the cost of competitive solutions. ATLAS is available in a 30 user or 60 user offering - all for one low price paid over a three year period with 0% financing.

Milwaukee, WI ([PRWeb](#)) October 9, 2007 -- [WorkWise, Inc.](#), provider of enterprise-wide solutions that enable manufacturers to maximize profits through improved use of their information assets, announced the availability of [ATLAS](#) - an affordable complete ERP offering centered around the [Time Critical Manufacturing](#) (TCM) suite of applications.

WorkWise, Inc. has been providing manufacturers with world-class ERP solutions and implementations for nearly 30 years. The ATLAS program is a comprehensive, ERP offering that provides businesses with solutions for information management and pro-active decision making, all for a fraction of the cost of competitive solutions - and for one low price paid over a three year period with 0% financing.

Harry Mosesian, Director of Sales and Business Development, WorkWise, Inc. states "Manufacturers need to invest in their plant, equipment, marketing and people to grow their business. These companies have neither the time nor the additional capital to expend on long, complicated and expensive ERP implementations that don't provide a return on investment. That's where WorkWise and our new ATLAS program can help."

ATLAS is available in either a 30 or 60 user package:

- ATLAS/30 - 30 User Complete ERP System - including support & implementation - \$4995/mo for 36 months - 0% Interest
- ATLAS/60 - 60 user Complete ERP System - including support & Implementation - \$7995/mo for 36 months - 0% Interest

ATLAS is a COMPLETE ERP solution that also includes additional tools needed by today's manufacturers to stay ahead of their competition such as Business Intelligence, CRM and more:

- Complete support for Lean Implementation including Kanban and Direct Fulfillment
- On demand tracking of Key Performance Indicators
- Graphical Drag and Drop Scheduling
- World Class Product Configuration Tools

WorkWise, Inc. will be debuting ATLAS at the 2007 APICS Conference and Expo in Denver, Colorado, October 21 - 23 2007. WorkWise will be exhibiting at the event, as well as, presenting ATLAS at the 2007 APICS Showcase Theatre on Tuesday, October 23rd.

[About WorkWise, Inc](#) (www.workwiseinc.com)

WorkWise, Inc. is a customer-centric solution provider of the Time Critical Manufacturing (TCM) enterprise

application. In addition to the TCM Enterprise Application, WorkWise provides a full range of offerings, including Customer Support, Consulting, Technical and Integration Services. WorkWise offers solutions to make-to-order, repetitive and mixed-mode manufacturers to shorten cycle times, reduce inventory and improve customer service. Companies that require solutions that simplify and optimize manufacturing information, supply chain management, manufacturing execution and planning can enhance their operations through use of TCM by taking time out of the business processes and increasing value-add in products and services.
